

06/21/19 - FM 1626 Traffic Switch:

The traffic switch will begin at 5 AM on Friday, 06/21.

- Northbound traffic will be shifted from FM 2770 to RM 967 onto the new pavement on the east side of the roadway.
- Southbound traffic and the center turn lane will remain on the existing pavement on the west side of the roadway throughout the day.
- Police Officers will be controlling the signals at FM 2770 and RM 967 throughout the day, in addition to the side roads as needed.
- Daytime construction operations will consist of moving traffic barrier for the next phase of construction.
- Once construction operations are complete, southbound traffic will be shifted onto the new pavement from FM 2770 to Old Black Colony Rd.
- North of Old Black Colony Rd., southbound traffic and the center turn lane will remain on the existing pavement.
- This configuration will be temporary, as construction will continue in the center of the northbound and southbound traffic from Old Black Colony Rd. to RM 967. Once the construction of the new roadway completed, southbound traffic and the center turn lane will be shifted onto the new pavement. This work is estimated to be completed prior to the start of school on August 15th.

If you have any questions during the construction of this project please contact my assistant, Jennifer Scott, at 512-262-2091, or check the project website, www.improve1626.com. Thank you for your patience during the construction of these much needed improvements.

Thank you,

Mark Jones
Commissioner
Precinct 2
