

Construction activities performed during the Week of 04/02/2017 – 04/08/2017 are listed below:

- Texas Sterling continued the concrete box culvert extension by pouring the culvert walls on the east (downstream) side of Culvert 5, north of Oyster Creek Dr.
- Texas Sterling began the concrete box culvert extension by pouring the bottom slab and footing on the west (upstream) side of Culvert 3, north of Onion Creek.
- PEC completed the relocation of existing utility line from Elm Grove Elementary to Oyster Creek Dr.
- Zayo Group continued installing span wire along the west ROW from FM 2770 to Old Black Colony and installing underground utility lines from Old Black Colony to RM 967.
- Frontier Communications began splicing connections along the east FM 1626 ROW from Oyster Creek to RM 967.
- Spectrum (formerly Time Warner Cable) was not onsite this week.

Anticipated activities for the next week are as follows:

- Texas Sterling to continue the concrete box culvert extensions for Culverts 3, 4, and 5.
- PEC to complete relocating electric lines between Elm Grove Elementary and Oyster Creek and to continue removing electric lines no longer in use.
- Zayo Group to continue installing span wire and underground utilities along west ROW from FM 2770 to RM 967.
- Frontier to continue installing span wire on the west ROW between FM 2770 to Onion Creek and schedule a splicing date to energize the new lines.
- Spectrum (Time Warner Cable) to schedule a splicing date to energize the new lines.

If you have any questions during the construction of this project please contact my assistant, Jennifer Scott, at 512-262-2091, or check the project website, www.improve1626.com . Thank you for your patience during the construction of these much needed improvements.

Thank you,

Mark Jones
Commissioner
Precinct 2

1. Sterling Pouring Concrete for Proposed Box Culv N of Oyster Creek Dr
